Welcome to the Future of Intelligent Living

At AILE, we believe modern living should be effortless, intelligent, secure, and beautifully connected. AILE Smart Living combines luxury design, automation, security, energy management, and smart technology to create spaces that respond seamlessly to your lifestyle. Powered by AILE Power and curated by AILE Homes, our smart living ecosystem transforms homes, apartments, offices, hotels, and commercial spaces into immersive intelligent environments designed for comfort, convenience, and modern living. From smart lighting and automated curtains to intelligent security systems and fully connected spaces, AILE Smart Living brings the future closer to home.

Experience Life. Reimagined

Smart living is more than technology. It is comfort, simplicity, convenience, security, and control — seamlessly integrated into everyday life. With AILE Smart Living, your space becomes more responsive, more intelligent, and more personalized to the way you live. Control lighting, security, climate, entertainment, curtains, and more from your smartphone, voice assistant, or central smart control system. Create personalized scenes, automate routines, and experience a home that adapts effortlessly to your lifestyle.
